Administrative Procedure - National Terrorism Advisory System

The National Terrorism Advisory System (NTAS) is designed to convey timely information to the American public about terrorist threats. NTAS issues two types of advisories: *Bulletins* and *Alerts*, which are described below:

Bulletins - Communicate current developments or general trends about terrorism threats without necessarily indicating a specific threat. This means a Bulletin provides broad terrorism threat information that allows recipients to quickly take protective measures.

Alerts - Are only issued when specific, credible information about a terrorist threat is available. An Alert may include specific information, if available, about the nature of the threat, including the geographic region, mode of transportation, or critical infrastructure potentially affected by the threat, as well as steps that individuals and communities can take to protect themselves and help prevent, mitigate, or respond to the threat. Alerts carry an expiration date and will be automatically canceled on that date. Updates to an Alert, as well the cancellation of an Alert, will be distributed in the same way as the original Alert.

Alerts will state whether a threat is *elevated* or *imminent* as follows:

A threat is *elevated* if there is no specific information about the timing or target.

A threat is *imminent* if the threat is believed to be specific and impending.

NTAS advisories are issued by the U.S. Dept. of Homeland Security at: www.dhs.gov/national-terrorism-advisory-system.

Cooperative Response Measures

The Executive Director or designee is responsible for tracking Bulletins and Alerts and disseminating those that merit administrative review.

After receiving an NTAS advisory, the Executive Director, Building Principal or other appropriate administrator (*administrator*) will review it and determine what response measures, if any, should be taken. To determine the appropriate response, the administrator should assess the threat to the Cooperative activities for which he or she is responsible and consider reviewing the threat with other administrators and/or public safety officials. A range of potential response measures are listed below in the column entitled **Potential Response Measures in Addition to Any Suggested by the NTAS Advisory**.

The Executive Director and Building Principal(s) should strongly consider closing school(s) and canceling activities whenever there is an *imminent* threat to the Cooperative or one of its buildings.

Response Category	Potential Response Measures in Addition to Any Suggested by the NTAS Advisory
