Administrative Procedure - Interview Questions

Anti-discrimination laws affect all steps of the employee hiring process. Knowledge of the characteristics on which these laws prohibit inquiry is especially critical when conducting interviews. Any employer that asks applicants to record video interviews and uses an artificial intelligence analysis of the applicant-submitted videos must comply with the Artificial Intelligence Video Interview Act, 820 ILCS 42/, added by P.A. 101-260. Sloppy interview practices can result in the appearance of illegal discrimination or actual discrimination.

Interviewers should avoid seeking information that will not be used to make an employment decision. Assume that a rejected applicant may believe that all information acquired was used. The Cooperative, if challenged, must explain why it asked for the information – a very difficult task when the information involves race, sex, religion, age, disability, etc. Information needed for insurance, tax, social security, or similar purposes should be obtained after employment. The following list of protected characteristics may not be complete because of the rapidly changing nature of discrimination laws.
