Access to the Electronic Networks

Electronic networks are a part of the Cooperative's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication. The Executive Director or designee shall develop an implementation plan for this policy and appoint a Technology Coordinator.

The term *electronic networks* includes all of the Cooperative's technology resources, including, but not limited to:

1. The Cooperative's local-area and wide-area networks, including wireless networks (Wi-Fi), Cooperative-issued Wi-Fi hotspots, and any Cooperative servers or other networking infrastructure;
2. Access to the Internet or other online resources via the Cooperative's networks or to any Cooperative-issued online account from any computer or device, regardless of location;
3. Cooperative-owned or Cooperative-issued computers, laptops, tablets, phones, or similar devices.

The Cooperative is not responsible for any information that may be lost, damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the Cooperative will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum and Appropriate Online Behavior

The use of the Cooperative's electronic networks shall: (1) be consistent with the curriculum adopted by the Cooperative; and its member districts' as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyber-bullying awareness and response. Staff members may, consistent with the Executive Director's implementation plan, use the Internet throughout the curriculum.

Use is a privilege, not a right. Users of the Cooperative's electronic networks have no expectation of privacy in any material that is stored on, transmitted, or received via the Cooperative's electronic networks. General rules for behavior and communications apply when using electronic networks. The Cooperative's administrative procedure, *Acceptable Use of the Cooperative's Electronic Networks*, contains the appropriate uses, ethics, and protocol.

Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Technology protection measures shall be used on each Cooperative computer with Internet access. They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Executive Director or designee. The Executive Director or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Executive Director or Technology Coordinator. The Executive Director or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
