Students

Illinois Asthma Episode Emergency Response Protocol* October 2016

This document was prepared by the Illinois State Board of Education in collaboration with the American Lung Association, Respiratory Health Association, Illinois Asthma Partnership, Chicago Asthma Consortium and Illinois Association of School Administrators in compliance with Public Act 99-0843.

Purpose

The purpose of this document is to provide assistance to a student experiencing asthma episode symptoms of wheezing, coughing, shortness of breath, chest tightness, and/or breathing difficulty.

Equipment and Supplies

- Prescribed quick-relief medication (albuterol, ProAir, Proventil, Ventolin, etc.). Many students
 have their own inhaler on their person, as allowed by state law. If asthma medication is not
 on the student, immediately summon school staff members who have access to the
 medication.
- 2. All equipment and supplies necessary for administering asthma medication (spacer, nebulizer machine, etc.)
- 3. Student's Asthma Action Plan (if available)

Procedures

Step	Condition	Action
1	Asthma Episode If student exhibits any of the following signs such as wheezing, coughing, shortness of breath, chest tightness, or difficulty breathing	 Assess student for any asthma episode symptoms. Student report of "needing my inhaler" should be given primary weight even in the absence of other symptoms. Summon or notify school nurse of student's condition regardless of severity of symptoms and report findings (if non-nurse is assisting student).
2	Severe Asthma Episode If student has any one or more of the following severe asthma episode symptoms: Very fast or hard breathing Nasal flaring	Do the following in this order: CALL 911 IMMEDIATELY CALL SCHOOL NURSE (RN) IF NOT ALREADY PRESENT
	 Skin retracting/sucking over child's neck, stomach, or ribs with breaths 	CALL PARENT/GUARDIAN

^{*}All staff members should review this protocol. Any staff member who may be likely to assist a student with asthma should review this protocol <u>and</u> practice with a "trainer" for the student's prescribed quick-relief inhaler. Training should be provided by a Registered Nurse (RN) assigned to the school, if available, or by reviewing the package insert of the student's quick-relief inhaler medication.

	Breathing so hard they cannot walk or		
	speak	•	Continue to step 5 "Quick-Relief
	 Lips or fingernail beds turn blue 		Medication".
3	Loss of Consciousness	9	Call 911, if not already summoned.
	If student appears to lose		,
	consciousness or ability to		
	participate in own treatment		
4	No Quick-Relief Medication		CALL 911 IMMEDIATELY
	If student has no quick-relief		
	medication		CALL SCHOOL NURSE (RN), IF
	·		NOT ALREADY PRESENT
			CALL PARENT/GUARDIAN
5	Quick-Relief Medication		Assess respiratory status using peak
	If student has quick-relief medication and the		flow meter.
	episode is not an emergency	9	Give/assist with giving prescribed
			asthma quick-relief medication (with
			delivery device) as authorized by
			student's Asthma Action Plan or
			medical orders.
			Stay with the student and observe for
			improvement.
			a. Stay calm, speak softly,
			encourage student to take
			slow, deep breaths.
			b. Seat student comfortably,
			indoors if possible. Remove
			outerwear, if present, and
			loosen clothing, if needed.
		9	Do not permit student to lie down or
			fall asleep.
6	Improvement	9	Monitor student for 15-20 minutes
	If student improves after quick-relief		then allow student to return to class
	medication given		and resume activities.
			Repeat quick-relief medication every
			10-20 minutes, or as authorized in
			student's Asthma Action Plan, until
			help arrives or student's breathing
			improves. Stay with the student until
			transferred or recovers. Call
			parent/guardian or direct someone
			else to contact parent/guardian.
7	No Improvement	+-	CALL 911 IMMEDIATELY
<i>'</i>	If no improvement within 10 minutes of quick-	9	CALL 311 HAMAIEDIA LELT
	•		
	relief medication administration, if symptoms		

^{*}All staff members should review this protocol.
