NORTH DUPAGE SPECIAL EDUCATION COOPERATIVE

Licensed Professional Staff Appraisal Plan

Introduction

The North DuPage Special Education Cooperative (NDSEC) Professional Appraisal Plan assesses licensed professional staff performance based on the four domains of professional skills found in the Danielson “Framework for Teaching: Evaluation Instrument” 2013. Professional staff include all licensed classroom and itinerant teachers, speech-language pathologists, vocational facilitators, social workers, occupational therapists, physical therapists, licensed school nurses, and school psychologists (hereinafter “Staff”) employed by the Board.

Four domains and elements within each domain provide the framework for the appraisal process, define the scope of the program, and facilitate the focus on the specific elements of professional practice. Each discipline has a rubric defining each domain and associated elements.

The NDSEC Professional Plan Joint Committee has reviewed the Performance Evaluation Reform Act (PERA 2010), which includes professional practice and student growth. For licensed teachers, including classroom, hearing itinerant, vision itinerant, adaptive PE and vocational, the student growth component is outlined in the *NDSEC Teacher Evaluation Plan Related to Student Growth*.

2015-16 Committee Members include:

Melanie Bogue, Teacher
Abigail Currie, Hearing Itinerant Teacher
Kelly Gould, Private Placement & Related Services Coordinator
Rosemary Nizzi, TLC Principal & ALSP Coordinator
Todd Putnam, Director of Programs & Services
Laura Robinson, School Nurse
Julie Sacco, Teacher
Lisa Sporer, School Social Worker
Karin Stevens, NDSEC Special Education Coordinator
Lori Wissinger, Physical Therapist

Original committee members were: Melanie Bogue, Dr. Lea Anne Frost, Donna LaRocca, Cheryl Riley, Julie Sacco, Karin Stevens, and Angela Tennant.

The NDSEC plan of performance appraisal includes steps for monitoring, assessment and revision. It is assumed the plan must be monitored, assessed and revised after it has been implemented. The Evaluation Committee will meet on an annual basis to review, refine and revise procedures and forms as necessary. Redefinition of performance criteria will be considered as necessary.

Philosophy of Evaluation

The primary purpose of the evaluation process is to enhance quality instruction, encourage professional growth, and improve student achievement for all students of the North DuPage Special Education Cooperative.

Overview

The North DuPage Special Education Cooperative selects professional staff of the highest caliber and holds high expectations for their professional performance. Evaluation of non-tenured and tenured staff is viewed as critical to the success of the individual and the Cooperative in serving students and the community. This system is designed to provide staff with a clear understanding of the Cooperative's performance standards, feedback regarding professional effectiveness, and support for growth.

The performance appraisal system is built around two major concepts: Formative Appraisal and Summative Evaluation.

Formative Appraisal (Observation/Evaluation)

Formative appraisal is intended to improve individual staff performance. Appraisal focuses on identification of strengths and weaknesses, identification of staff development strategies, and resources to address areas in need of improvement. The formative appraisal consists of both informal and formal observations.

Time Lines

Any time lines for the completion of an observation, conference, Formative or Summative Evaluation, Professional Development Plan or Remediation Plan may, at the Evaluator's discretion, be extended if the employee utilizes an FMLA leave or otherwise misses more than five (5) workdays during the pertinent time period. If the Evaluator determines to extend one or more time lines, the affected staff member shall be notified in writing by the Evaluator and the Association President provided with a copy thereof. There is also an exception for staff hired after November 15. The observation time lines will be extended to ensure new staff are not evaluated more than once in a three-week period. Therefore, the Summative Evaluation may be completed after February 28.

Informal Observations

The primary purpose of informal observation is to validate and support effective instruction on a continual basis. In addition, informal observations lend to a more thorough evaluation of staff performance. Informal observation is a natural process, which acknowledges performance beyond the formal observation.

Informal observations include any and all things that reflect overall professional competencies. Informal observation is, as the name implies, informal. It is ongoing and could take place in a variety of professional environments. It may be considered to be part of any or all interactions, between professionals. It may include:

- lesson observations, classroom walk-throughs, and school activities outside the classroom;
- focus on professional behavior in a variety of school settings and/or between a variety of individuals: students, colleagues, parents, administrators or other school staff;
- annual reviews, IEP conferences, parent-teacher conferences

Informal observation may be of any duration and may be conducted as often as the evaluator considers appropriate. At least one (1) informal observation is required for all staff. If data is to be used from an informal observation in the evaluation, staff will receive written notification within 10 days of the observation and be given the opportunity to meet with the evaluator to discuss.

Formal Observation(s)

A formal observation for tenured staff consists of at least one visitation of no less than 45 consecutive minutes, a complete lesson, or an entire class period in a classroom/work setting. All staff who are to be evaluated will be given written notification prior to students' first day of attendance. Each formal observation must be documented by a written observation report completed and reviewed by the evaluator with the staff member within 10 working days.

A minimum of two (2) formal observations and one (1) informal observation are required for non-tenured staff for the first four years. Evaluators may initiate additional formal and informal observations at their discretion.

The first Formative Evaluation for non-tenured staff must be completed by November 15 and the second by January 31.

The Summative Evaluation for tenured and non-tenured staff must be completed no later than February 28.

Pre-Observation Conference

The purpose of a pre-observation conference is for the staff member to provide the evaluator with information regarding the objectives of the lesson to be observed, the prior instruction of students, the learning activities or methods to be used to meet the stated objectives and/or any relevant characteristics of the learning environment. All staff will complete a pre-observation form and submit to the evaluator prior to the pre-conference. The pre-observation form serves as a guide for discussion between the staff member and evaluator. Not all areas on the pre-observation form need to be addressed in each pre-observation conference.

Post-Observation/Formative Evaluation Conference

A post-observation reflection form is required for the staff member to submit to the evaluator within three days following each formal observation. The evaluator will hold the formative evaluation conference with the staff member within 10 working days following completion of the formal observation.

The conference will focus on discussion of the observation and other factors deemed relevant to the performance of responsibilities listed in the position description and standards of professional practice. The evaluator will share with the staff member indicators of performance related to the position description. In addition to the formal observation, data sources may include lesson plans, student work samples, records or other appropriate materials to substantiate performance. Strengths and weaknesses will be discussed and recommendations for growth and/or improvement will be formulated. The staff member may attach additional comments or include a response to the observation report, if desired.

Summative Evaluation

The summative evaluation reflects the overall effectiveness of the staff member. It further provides data to assist personnel decisions and assignment, transfers, promotions and continuing employment. Illinois Ed Reform (Senate Bill 7, P.A. 97-0008) requires teacher performance-based evaluations under the Performance Evaluation Reform Act (PERA). The summative evaluation is utilized for all staff.

Summative Evaluation Conference Report

An annual summative evaluation (biennial for tenured staff) conference will be completed for each licensed professional staff member no later than February 28. The summative evaluation will focus on the staff member's overall performance throughout the year and will include information gained through formal and informal observations, conferences between the evaluator and evaluatee, and other data sources cited as appropriate to substantiate performance. Such other data sources may include lesson plans, student work samples, records, or other materials relevant to performance assessment.

The summative evaluation will consist of an overall evaluative rating: Unsatisfactory, Needs Improvement, Proficient, or Excellent.

The Summative Evaluation Conference Report will be signed by both parties and be included in the staff member's personnel file. The signature of the staff member does not necessarily indicate agreement with the written evaluation, but rather shall indicate that the conference and the discussion have been held and that the staff member is in receipt of a copy of the written evaluation.

Professional Development Plan (PDP) for Tenured Professionals

Premise

Non-tenured staff shall be formally evaluated (formative, summative) annually using the same evaluation instrument as tenured staff for the first four years of employment. Non-tenured staff is not entitled to a PDP in the event of a “needs improvement” rating.

Within 30 school days of the completion of a summative evaluation rating of a tenured staff member as “needs improvement”, the evaluator, in consultation with the staff member, must create a PDP that is directed to the areas of needed improvement. The PDP includes defined areas of professional practice that need to be improved and types of evidence towards progress/achievement of goal. The plan also must describe any support the Cooperative will provide to address any areas identified as needing improvement (PERA 2010).

Purpose

The purpose of the Professional Development Plan for tenured professionals is:

- 1) To enable an administrator to assist a tenured professional needing assistance in any of the Domains for Professional Practice.
- 2) To enable a tenured professional the opportunity to seek assistance in any of the Domains for Professional Practice.
- 3) To provide more specific guidance and assistance for the resolution of concerns identified in the summative evaluation for tenured staff.
- 4) To provide an opportunity for the staff member to demonstrate performance at a proficient or better rating.

The Professional Development Plan (PDP) for tenured professionals will be discussed at an initial meeting to be held within thirty (30) school days of the final meeting of the summative evaluation. During the PDP phase, intensive supervisory procedures and timelines will be established collaboratively. These procedures will be referred to on the PDP Action Plan Form.

The Professional Development Plan for tenured professionals will include:

- 1) A statement(s) identifying the concern(s) relative to the Domains for Professional Practice;
- 2) An identification of individuals involved in the plan;
- 3) A listing of activities/procedures to be initiated and utilized;
- 4) A listing of resources to be allocated for plan implementation and completion including but not limited to materials, staff development and budgetary considerations;
- 5) A timeline indicating implementation dates, final review dates, and meeting dates to review progress on the plan. All PDPs must be scheduled for a minimum of 30 school days and two observations/conferences.

Changes can be made to a PDP that is in process as long as the administrator and staff member agree to such changes.

At the end of a PDP, the evaluator will schedule a formal observation to complete a summative evaluation. If the summative evaluation identifies new areas of concern (rating of “needs improvement”), the PDP process will be initiated for those areas.

If the summative evaluation results in an “unsatisfactory”, the remediation process will be initiated.

When a staff member achieves a rating of “proficient” or “excellent” on the summative evaluation following a PDP, they must partake in a minimum of three observations in the following year: two of which must be formal, one informal, and a summative evaluation.

Remediation Plan

The Remediation Plan is initiated if a tenured staff member receives a rating of “unsatisfactory” on the summative evaluation. Non-tenured staff is not entitled to a remediation plan in the event of an unsatisfactory rating.

1. The Remediation Phase will be discussed at an initial meeting to be held within 5 school days of the summative evaluation conference.
2. The Remediation Plan must be implemented within 30 school days after receipt of an unsatisfactory evaluation.
3. The Remediation Plan must continue for 90 school days.
4. The consulting staff member shall participate in the development of the plan.
5. A “consulting staff member” is defined in the statute as a staff member with reasonable familiarity with the subject area of the staff member under remediation, has been rated “excellent” on his/her most recent evaluation, and has at least 5 years experience. If no one within the cooperative meets these criteria, the statute allows the cooperative to request the regional superintendent to provide a list of such individuals.
6. An open-format form is included to reflect the issues unique to each staff member under remediation.
7. A staff member shall be issued a minimum mid-point and final evaluation using the Professional Practice Rubric while on remediation. The mid-point evaluation must be within 45 school days of the start date of the remediation plan and the final evaluation must be provided within 10 school days after conclusion of the remediation plan. Each evaluation must assess the staff member’s performance during the time period since the prior evaluation. The final evaluation shall also include an overall evaluation of the staff member’s performance during the remediation period. The evaluator will use the forms provided for the annual evaluation of staff in the cooperative’s evaluation plan.
8. If the staff member fails to complete the remediation period with a rating equal to or better than “proficient”, he/she must be dismissed per Section 24-12 of the School Code.
9. If a staff member receives a proficient or an excellent rating, the evaluation cycle resumes at year one of the evaluation cycle and a summative evaluation the following year which will include a minimum of 3 observations, two of which must be formal.

Please complete questions and return to evaluator (within 3 days of the observations) for discussion at the conference.

1. In general, how successful was the activity? Did the participants learn what you intended for them to learn? How do you know?

2. Did you alter your goals or instructional plan as you led the activity? If so why?

3. Comment on your delivery procedures, participant conduct, and use of physical space. To what extent did those contribute to achieving your objective?

4. If you are able to bring samples of student work, what do those samples reveal about those students' levels of engagement and understanding?

Staff are encouraged to bring to the post-conference evidence and artifacts to demonstrate knowledge of which domains may or may not have been observed.
